

Poncho: Ripple

By Marilyn {Ameigh} Moore

<http://www.crochet-knit.com>

Above: New Neck Area [change from original as the cape is now a poncho and done in the round except for first two rows for the neck area.

Above: New body of poncho [change from original and done in the round except for the first two rows] Can be done all in one color or change of color with 4 rows in each color. The neck trim is two rows of sc including picots on round 2. This image is poncho when it was partially completed.

Cape -- Original Image: from <http://suzies-yarnie-stuff.blogspot.com/2010/07/ripple-capelet.html>

My version is derived from the above cape.

Notes:

- Alteration can be made to have arm holes at sides, if desired, but not included in my pattern below.
- Poncho can be longer by adding more rows. Width can be increased by adding 4 more ch/dc in first row, thus creating more points. "My New Poncho" has 15 points in pattern and fits up to 3X in size. For 5X-6X size I added 2 more points or 8 ch/dc.
- Instead of doing decreases by cluster method, I used a skip 2 dc method at the decrease area. My method made more decorative holes. For the no extra holes method refer to suzies-yarnie-stuff pattern [link above].
- If desired, instead of picots, a row of reverse sc can be done.
- If desired, instead of picots, two rows of sc can be done. Remember decrease areas and point areas need special attention to have it hang correctly when worn.
